Ultimate steel precision for the perfect beard

The best from Philips

The Philips BT9000 Prestige delivers unmatched precision thanks to the built-in metal comb, giving consistent trimming results no matter how much pressure is applied.

The most precise trim*

- Ultimate precision with the unique SteelPrecision Technology
- Skin follower guides the trimmer smoothly for an even cut
- Sharp full-metal blades cut precisely without pulling
- 30 different length settings with precision steps of 0.2 mm

Consistent and efficient cutting performance

- Effortless trimming even on dense and longer beards
- Up to 120 min runtime after a 1 hour charge, plus quick charge

Premium experience

- High-quality stainless-steel body for a lasting experience
- Pop-open head makes it easy to clean under the tap
- Quickly see the status of your trimmer's battery
- Premium travel case to always protect your trimmer

Highlights

SteelPrecision Technology

The BT9000 Prestige features the brand-new SteelPrecision Technology, which consists of an integrated metal comb and a strong cutter. This system does not bend like a plastic comb, no matter how much pressure is applied. This way BT9000 Prestige always delivers the most even and precise trimming results*.

Anti-friction skin follower

Thanks to the skin follower, the trimmer is always at a right angle to your skin, giving you a precise result. It also has an anti-friction coating, which guides the trimmer smoothly on your face.

Full metal blades

Our full-metal blades remain sharp for life. They have a special geometry which always delivers a precise cut even on the thickest hair without pulling.

0.2-mm precision

Style your beard with ultimate accuracy by choosing a hair length down to 0.2 mm precision. Use the zoom wheel to select from 30 different length settings, from 0.4 mm all the way to 10 mm.

PowerAdapt Sensor

The PowerAdapt Sensor checks the hair density 125 times per second and automatically adapts the motor to maintain constant power. This way, regardless of hair density and length, consistent trimming performance is achieved.

Up to 120 min Li-ion power

The advanced Li-Ion battery provides up to 120 minutes of powerful use after a 1 hour charge. Also enjoy the quick-charge function that gives you one full trim after just 5 minutes of charging.

Lasting steel body

The BT9000 Prestige is crafted to stand the test of time. Its high-quality stainless-steel body is hand finished with ultimate attention to detail, giving you a lasting premium experience.

3 level battery indicator

The battery indicator shows when your trimmer is charged, charging or when it needs to be plugged in. It also shows you the remaining charge with 3 simple bars.

100% waterproof

Simply pop the head open and rinse under the tap to clean.

Specifications

Cutting system

Cutting element: Full metal blades

Range of length settings: 0.4 mm up to 10 mm

Precision (size of steps): 0.2 mm

Number of length settings: 30

Cutting technology: SteelPrecision, skin follower

Ease of use

Zoom wheel: Easily adjust length settings

Operation: Corded and Cordless use

Cleaning: 100% Waterproof

Battery indicator: 3-level indicator

Power

Battery Type: Lithium-ion

Run time: 120 minutes

Charging: 1 hour full charge, 5-min quick charge

Automatic voltage: 100-240 V

Service

2 year warranty

Usage: Oil in pack

Accessories

Comb: Click-on Long beard comb

Premium storage and travel case
