Easy to use

- Textured handle with on/off sliding switch
- Fully washable for easy cleaning
- AA battery included in the pack

Built to last

- Built to last

Highlights

Remove unwanted hair

Easily reach and remove unwanted nose and ear hair comfortably. Ensure your nostrils are clean before use and carefully insert the trimmer inside your nose no more than 0.5cm and slowly circulate it. When trimming ear hair, ensure ears are free of wax.

Protective Guard System

Our Protective Guard System provides a cover over the blades designed to ensure they will never be in touch with your skin while safely guiding your hair towards the cutting element. The Protective Guard has been engineered to make trimming comfortable and safe, minimizing missed hair whilst protecting against hair pulling, tugging or nicks and cuts.

PrecisionTrim technology

Our innovative cutter is dual-sided to ensure all hair are cut quickly and effortlessly from any angle and in any direction. The blades are made of durable stainless steel and designed to last.

Easy handling

Easily turn on/off your device with one hand. The textured handle gives you the best hold, even when wet, for better control when you operate your trimmer.

Fully washable

This trimmer is water resistant, so it is easy to clean: just rinse it under the tap.

Battery operated

This trimmer runs on one AA battery that is included in the box, so your trimmer is ready to use right away. To change the battery, open the device by gently turning the bottom part to the left. Pull the bottom towards yourself to reach the battery compartment.

2-year worldwide guarantee

All of our grooming products are built to last and engineered to give a reliable performance, time after time. This trimmer comes with a 2-year worldwide guarantee.
