STANDARD ACCESSORIES

Commercial-grade, stainless steel conical burrs

The burr grinder is equipped with a lower burr and an adjustable upper burr. Making adjustments to this upper burr expands the grind size range, allowing to customise even further.

Top hopper and top hopper lid

UV-resistant to help keep beans fresher.
Not dishwasher-safe.

Portafilter holder and grounds catcher tray

Remove the grounds catcher tray to access the portafilter locked in its storage location. For grinding into a portafilter, the portafilter holder should be inserted in the top or middle guidelines of this holder.

Bottom hopper and bottom hopper lid, and with rubber stop

Spring-loaded base enables bottom hopper to fit snugly up against the grinder.
UV-resistant to help keep grounds fresher.
Not dishwasher-safe.

Easy reference brew method icons.

Grind size knob and indicator – dose selection knob and indicator – time adjustment knob and grind time indicator – start/stop button – program button

70 unique grind size settings: suitable for a range of brewing methods, from the finest setting for espresso to the coarsest setting for French press. By adjusting the dose selection knob, you can choose from 1 to 2 shots of espresso or 1 to 12 cups of coffee.
